

**SAEVA REPORT  
EASTERN CAPE  
FEBRUARY 2020  
DR AH PARKER**

1. **Report Back** -none

2. **For Discussion** -none

3. **For Decision**- none

4. **For Information**

The East Cape Horse Care Unit continues to visit the former Transkei to do routine farrier work and present information on general primary health care. Phumelela has provided funding for this service. Our representative has attended a number of race meetings in the Transkei and in the Berlin area near East London. He assisted by checking horses were sound and healthy and fit to race. It is expected a horse race with participants from the informal sector will take place at Fairview during 2020. Horses have been vaccinated according to NHA regulations recently in preparation.

5. **CPD**- none

6. **State Vet Liaison**

There is a good relationship and regular communication between the State Vet in Port Elizabeth and the private practitioners in the area.
